LATE PERIODICALS .- We have received from Mr. B. Doscher, of the Postoffice Literary Emporium, in Hasel-street, late copies of the "Southern Opinion," the "Southern Home Journal," "Southern Society," "The Dime Illustrated"-a new and very handsome pictorial-the "Land We Love," the "Irish Citizen" (Mr. John Mitchel's paper), Putnam's Monthly, and all the New York German pa-

QUICE PUN.-The fine steamer City Point, Captain S. Adkins, arrived here yesterday from Savannah in the excellent time of six and three-quarter hours from port to port. The City Point and the Dictator, which are keeping up the connection of this city with the principal ports in Florida, have no superiors of their class. Their construction in hull and machinery, speed, accommodation, and in the reliable character of their appointment, are not exceeded by any boats on the coast. Our friends in Florida have been particularly favored in having two such noble vessels in their trade.

INCENDIARISM ON BLACK RIVER. - The steam sav mill belonging to Messrs. J. P. Bridger & Co., located on Black River, twenty miles above Georgetown, was discovered to be on fire at four o'clock on the morning of the 10th, and, before assistance could be obtained, it was totally destroyed. The tracks of two men were discovered leading towards the river, and the boat, which had been fastened to the wharf the night previous, was stolen-sur posed by the incendiaries. The dwelling house a Brown's Ferry (1) one and a half miles from the mill, was also totally destroyed by fire the same

Co-operation in the Country .- J. E. P. writes us from Timmonsville that the articles in the DAILY News on the subject of co-operation have awakened so deep an interest in that place that a project is on foot to establish a country store there upon the co-operative principle. He inquires where further information can be had as to the details of the the system. For the benefit of this correspondent, and others who have made the same inquiry, we would say that full particulars of the mode of commencing and carrying on a co-operative store are given in a little volume, which may be obtained at Russell's Bookstore, King-street. Price, 50 cents.

COMING EVENTS CAST THEIR SHADOWS BEFOREand a very pleasant shadow it is, that cast by the Christmas tree. We took a look at it vesterday, and saw Santa Claus and his journeymen hard at work to get it all ready for this evening, when he will be most happy to see all good boys and girls, with their papas and mammas, and big grown-up brothers and sisters. The street in front of his headquarters at Commins' Hall was strewn yesterday with pine, cedar, orange, holly, cassina or Christmas bush. Everything will look perfectly splendid to-night.

ARIEL REFUTED-A complete exposure of a pamphlet entitled "The Negro." By E. B. S. Charleston: John Russell. "A complete exposure." We have had several replies to the famous pamphlet entitled "The Negro," all of them written by Clergyman; we have one, at last, the work of a Reviewer. It is, as it professes to be, complete, pursuing "Ariel" page by page, and disclosing, one by one, the absurdities with which his pamphlet is shown to abound. The lash of ridicule is mercilessly applied throughout; the satire is keen and trenchant, and the paper will prove highly entertaining even to those who feel no interest in this much agitated question. It bears the imprint of John Russell, publisher, and the execution of the printing work is highly creditable to Jos. Walker, printer. See advertisement in an-

THE CITY STREETS AND DRAINS .- Notwithstanding the depressed condition of the city finances, it ry gambols of the children for several minutes, is pleasing to notice that the authorities are using | the bell tinkled for "forming into line," preparatothe limited means at their disposal to the best advantage. The new payement on East Bay, composed of gas lime and other materials, promises to be a complete success, the surface, while being sufficiently hard to throw off water with facility, has the advantage of being much more comfortable to the feet of the pedestrian than the ordinary brick, and will be much easier on shoe-leather than march up a long flight of steps, in a straight onwas the old pavement. The city drains are being cleaned and placed in good cordition for the next Summer. The cobble-stone pavement at the Vendue Range is near completion, and promises, under the excellent superintendence of Contractor O'Donnell, to be a work of usefulness and durability.

Simonton & Barker for defendant. D. T. Corbin, District Attorney, contra. Mr. Simonton read affidavit on motion to set aside verdict and judgment, on the groun I that there was a defence, and there was negligence, and other than that of the defendant, which caused verdict and judgment to be obtained without defence being heard. counsel for plaintiff and defendant, both addressed the court at length on the motion, after which the Judge made the following order: Hearing the affidavit of C. H. Simonton, one of the attorneys of this court, and on motion of Simonton & Barker for defendants, it is ordered, that the judgment heretofore rendered in this case, be set aside and vacated, and that the defendants have leave to plead to the declaration forthwith. It is further ordered, that the affidavit be filed with this order, and the defendants to pay all costs of the levy or levies made in this case.

James A. Holt, of North Carolina, vs. William M. McDonald et al., of South Carolina.—Assumpsit—Non-assumpsit.—S. P. Hamilton for plaintiff, Arthur, Melton & Melton for defendants. The defendants contended that the case came under the ruling of the Judge, in Order No. 10 of General Sickles, which stayed all writs instituted by citizens of North Carolina against those of South Carolina. The counsel for the plaintiff contended that it was too late in the condition of the pleadings for the defendant to avail himself of the benefit of the order, as, having pleaded the general issue, his right to plead to the jurisdiction was waived; and also that the action having been commenced before Order No. 10 was issued, and the court having obtained jurisdiction of the case, could not be divested of it, and the plaintiff was entitled to go to trial. The Judge decided that Order No. 10 need not be pleaded specially, but might be suggested at any time, without regard to the condition of the pleadings.

THE ORPHAMS .- In the report of the School Board to the Commissioners of the Charleston Orphan House, published in the News a few days ago, they suggest that application should be made to the Faculty of the Medical College in our city, "asking their consent for the admission of one or two boys at a time to such of the lectures as may afford instruction in the department of drugs and Also, under garments, hosiery and gloves; likewise medicines." This request is suggested by the one hundred cases boots and shoes. Now is the career of one of the boys from that institution, who has selected pharmacy as his profession.

We have no doubt that the faculty will readily respond to this request, having been always distinguished for kindred acts of liberality. We are the more pleased at the course of the commissioners, from having not long since been present at an ex- Boxes, made of finely polished olive wood, and examination of the pupils of the Orphan House quisitely inlaid with colored woods. They are School, and witnessed their exemplary bearing, made in Sorrento, Italy, and are rarely seen in thorough training and proficiency in all the ele- this country. Also, some rare specimens of carved mentary branches of learning.

rolina College, also, as well as the C. "lage of Walker's. Charleston, have been open to a limited number of the most talented boys of the Orphan House, and, by means of these instrumentalities, the beneficiaries of our noble city charity have frequently reached eminent positions in various walks of life. Some of our most distinguished legislators, lawyers, physicians, clergymen, professors, teachers and merchants have proceeded from its halls, and are now blessing their Alma Mater, and the care and kindness with which commissioners and teachers watched over their orphan vouth.

THE FRANKLIN-STREET COLORED SCHOOL. - Pass ing by this establishment on Tuesday last, we were attracted by the noise of the hundreds of children enjoying "recess" in the extensive premises attached to the school building, formerly used as the United States Marine Hospital. We took a reporter's liberty, went in, and after witnessing the merry to returning to their class rooms. The Rev. C. C. Pinckney, of this city, and Rev. Mr. Mellichamp, of Orangeburg, were interested spectators of the scene, as well as the present historian. The "forming" tock some minutes, when, upon the word being given, marching commenced. And it was no small feat for those little feet on tip-toe to ward march, only one foot on a step at a time.

After they were all re-housed and seated, we visited the class rooms, and were much pleased tial collapse-what is it best to do? Reason teaches us with the complete arrangement of everything. the answer : BUILD UP YOUR MAN. Brace him as you The furniture of the best mahogany and latest patent; the apparatus all of the most improved is a Tonic Alterative. Bring him up out of the depths of character-blackboards, maps, numeral frame, spelling tables, etc., etc., and lastly, a full and competent corps of teachers, all strictly following the same method of teaching. We could not help thinking of the old field school of other days, where many of these appliances were wanting. However we kept our reflections to ourselves, and listened to the children as they were singing place. Resort to the most wonderful of modern tonics, hymns and songs. They sing well, and appear to enjoy it very much. We were particularly pleased sia, Intermittent Fevers, Ellious Disorders, and affection with their rendering of the chant, "Gloria in Ex- of the Nerves, no other medicine will produce one tithe of the good effect that invariably follows the use of this celsis"-no small achievement under the circum-

The teachers deserve much credit for what they have accomplished during the few months the school has been in operation. The school, as our readers are aware, is under the direction of the For Instantaneous Detachment of Protestant Episcopal Church, and was established principally through the efforts of Rev. A. Toomer Porter. It was opened July 9, 1867, has thirteen C.; George H. T.aomas, Baltimore; Dr. H. Mc- teachers, all white, and, with one exception, all Henry, Summarville; V. W. M. Bran. John's natives of this city. Mr. Taylor, the Principal, seems to be well fitted for his arduous and responsible post. The school is supported by the Protestant Episcopal Freedman's Commission. The number of pupils enrolled is eight hundred and sixtythree, and the average attendance for November was six hundred and nine-three hundred and J. C. Oliver, Williamsport, Penn.; V. B. Chamber- sixty-eight boys and four hundred and ninety-four girls and one adult.

A tuition fee of twenty-five cents per week is required of such as can pay it, and during the last month two hundred and fifty-three paid it. The number of pupils in attendance, over sixteen years of age, is seventy, and we have serious doubts as son, Jr., Winnsboro', S. C.; William Patten, City.

THE MIGRATORY JAIL BIRDS.—Up to a late hour last night the Detective Corps had succeeded in only recapturing four of the runaways-two in the vicinity of the Powder Magazine, John Washington and Julius Baker, and two near Monk's Corner, Nero Wilson and Jesse White. They traced UNITED STATES DISTRICT COURT-IN ADMIRALTY-Columbia, December 10.—Ex parte T. Quinlivan sixteen up the road, but when they came close up & Bro. In Re W. C. THE PUBLIC PEACE seems to be in fair condition just at present. It scarcely pays the "Local" to make his diurnal peregrinations to the municipal hostelrie. To our inquiry last night, we were informed "all quiet except some negroes fighting and drawing knives." The fighting part we did not like and cannot commend, but in regard to the drawing-knives, they are all right enough, provided they are used in the right place. An advertisement will be found in this morning's News, calling for hands understanding the use of "drawing-knives"-to make shingles, we presume. We would suggest that the individuals above referred to apply for the situation.

THE TOURNAMENT AT COLUMBIA. - The Phoenix says the College Green was thronged on Tuesday morning with ladies and gentlemen-in vehicles and on foot-small boys and a fair sprinkling of the great unwashed. The following knights en-

ONE MORE UNFORTUNATE. -Of late we have been almost daily called upon to report cases of dead negro infants concealed about premises, or exposed in the street. Coroner's juries usually sit upon hese bodies, and we suppose it is right and acording to law that they should, but with all due deference to law and authority, we fail to see the use of these proceedings. In many instances, we surmise, these concealments are the result of poverty, coupled with ignorance, rather than of crime The expenses of burial are a considerable item, and many of the vagrant colored people from th country are not suinciently familiar with the "ropes" of the city to know where to go for the necessary assistance. Orime, however, in this particular, is unquestionably on the increase. Yesterday afternoon about four o'clock, two little boys in Tradd street were playing "circus," and, in pursuit of this amusement, needed something that was under the house. They went by the chimney, and found a box with a dead negro child in it. The father of one of the boys gave information of the fact at the Guard House. The Coroner empanelled a jury, which gave the usual verdict.

"Canse unknown." In this connection we cannot help wondering at the paradox we see around us of white men, and Southerners, taking pains to vindicate the humanity of the negro, as is proved by the numerou answers to "Ariel," while the negroes themselves by their actions in this and other instances, give color to the charge. It is true all should not be condemned for the sins of a few; but these cases are of two frequent occurrence to pass them by unrebuked.

C. DUCREUX'S PATENT Horses from Carriages.

excellent INVIGORANT AND CORRECTIVE.

Horses from Carriages.

This ingentous and very useful revention, which has been patented in the United States, France and England, is now offered by the subscriber to the public, leeling assured they will find it, upon examination, one of the greatest inventions of the age.

Prominent among its advantages are:

First—The facility with which horses may be harnessed to or unharnessed from a Carriage, also rendering it unnecessary for the person unharnessing to pass between or behind the horses as is customary, thus avoiding any liability of being kicked.

SECOND—In case of a horse failing, he may be loosed from the carriage in one second, without the driver leaving his seat. It is so simple in its operation that a child can work it.

THIRD AND GREATEST-In cases of horses taking fright becoming unmanagable or running away, the terrible consequences which so frequently follow may be all avoid-ed by this simple application to carriages, as the horses can be loosed from the carriage "in a twinkling," and the carriage is quickly and safely stopped.

Mr. C. DUCREUX gave several public exhibitions. The
great favor and praise manifested by the public on these
occasions, is one of the evidences of a popular apprecia-
